

ION LIGHTING™

ION Lighting a division of Impact Lighting manufactures a large range of general lighting products for interior and exterior illumination, including products for architectural lighting, landscape lighting, fiber optic illumination, commercial and industrial lighting and more. ION Lighting specializes in the manufacturing of high-quality, halogen, fluorescent and compact fluorescent, metal halide and high pressure sodium products.

ION Lighting excels in providing the best in quality products and service.

With many general lighting products, we're able to fill most orders right from our factory.

Our solid industry relationships also enable us to source hard-to-find fixtures for special applications.

Our staff includes lighting experts with an average of 16 years of experience in the lighting industry, and who attend trade shows regularly to stay on top of new products and trends.
